CEO & FOUNDER
Arun Singh Rathore

Who We Are?

We are pleased to introduce ourselves as a company dealing with mechanical maintenance products and services in Power plants, Fertilizers plant and Steel Plants etc. We have been doing this sale and services since 1996.

During this period, we have established good relationships on the basis of our excellent performance with most of the renowned industries in India.

What We Do?

Supply of Products:

We are dealing with mechanical maintenance products like gland packing for pumps, valves and mixers, jointing & gaskets, heat exchanger gaskets and different sealants for all applications. All the products are manufacturers by non-Asbestos material only. It may be either pure form of Carbon, Graphite, PTFE, Aramid and Ceramic etc. or the combination of two or more.

Service Provider:

We are specialized in gland refilling work especially in valves. We have very expert and experienced team of engineers and technicians to execute the jobs in Steam lines and other fluids and gases. During execution of jobs, we have a motto of "Zero Leakage". To make it zero leak, we apply special gland packing that can withstands very high temperature and pressure i.e. $T = 650 \text{ deg C}$ and $P = 400 \text{ Bar}$. Our gland packing is applicable to all media like steam, gases, liquid, chemicals pH 0-14.

Our Scope of Work:

Starts with cleaning of Job and work place for smooth and hassle-free working. It includes, opening of valve gland nuts and follower, removing of old packing, cleaning of Stuffing box, repacking of gland with our packing material and finally tightening of gland nuts. It takes 3 to 4 times to pack the valve completely. Before leaving the working place, we clean the place.

“

When we say integrated approach, we mean that we approach a case / project in a holistic way i.e., we evaluate all of its aspect and after considering all of them we proceed further, we look at a case / project from all angles.

Where & How We're Different!

We are taking these gland refilling jobs in valves as a program on turn key basis mostly this is being done during shutdown or turn around.

The guarantee of no leakage from the stuffing box from shutdown to shut down or for one year.

We're Professionals & User-Friendly...

Our engineers and technicians are professionals as well as friendly at site. We believe in enjoying our work and provide our clients quality work.

Our Vision

Our vision is to make plant leak free, hence to save money, material and to minimize the accidents due to leakages.

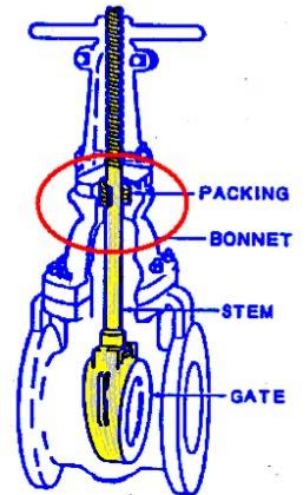

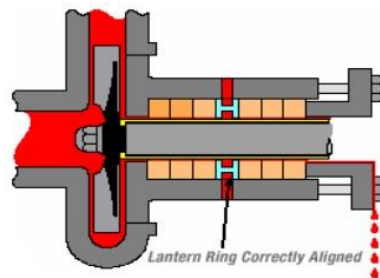

PACKING :

**To stop leakage
between the stuffing
box and the stem**

PACKING :

Performance Track

We have excellent track record of our successful work with different big industries.

We are pleased to explain you that we have been doing these jobs for last 20 years.

We have expertise in this particular job. We have given below few names of reputed companies where we work regularly and successfully.

01. M/s Tata Steel, Jamshedpur
02. M/s Tata Power Co. Ltd., Jamshedpur
03. M/s Tata Chemicals Ltd., Babrala, (UP)
04. M/s GAIL India Ltd., Pata, (UP)
05. M/s Indo Gulf Fertilizers, Jagdishpur, (UP)
06. M/s KRIBHCO Fertilizers Limited, Shahjahanpur, (UP)
07. M/s Century Papers, Lalkuan, (UK)
08. M/s Hindalco Industries, Renukut, (UP)
09. M/s Matix Fertilizers & Chemical, Burdwan (WB)
10. M/s Cadbury India Ltd.
11. M/s Renusagar Power Plant
12. Bhushan Power and Steel Ltd., Sambalpur, Odisha.

*If a plant is leak free it will always be neat & clean, noiseless and
maintenance cost free.*
